removed.txt

Hi Kristin:

I had the same issue with the well logs that you encountered, but I have not yet received the additional logs. Those well logs, along with confirmation of survey information and a few other things, are on a list of topics that I have for the next time I talk to Dave Larsen. He's currently "It" in our phone-tag loop.

You mentioned in your previous message issues with REI not meeting the conditions of the previous well installation, sampling and survey work. Can you let me know what those are so that I can make sure that REI is aware of them? Thanks.

We are committed to service excellence.

Visit our survey at <http://dnr.wi.gov/customersurvey> to evaluate how I did.

Good Morning Chris,

I received the emails you forward to Bob. The well construction document includes 6 of the 14 well logs for wells installed in November. Did you receive the other well logs? Also, the well logs lack location information. Have you received survey locations of both the wells and soil borings?

I appreciate you sharing materials WDNR may have received.
